

16.3.15

Dear parents,

We are trialling a Home Access Licence for Education City. This resource is web based, and is a tool we have used in class for some time. However, through being able to access Education City from home, we can now set homework tasks through it.

Please find attached 2 letters from Education City, one explaining how to install the app on an iPad or mobile device, and one informing you of your child's login and how to access Education City online. Please keep the login safe as they are allocated per pupil.

I know from previous experience how much the boys and girls enjoy the activities in class, and so I'm sure they will be motivated by the fun homework tasks, which are all linked to our Curriculum and set at the child's working level.

At the end of the trial, a decision will be made as to whether we continue to pay for the licence. If you have any issues accessing or logging into Education City, please get in contact with the school.

Many thanks,

Emma McDonald
